

# **We need your old laptops!**

**Do you have any old, unused laptops at home?**

**Do you work for a company that regularly replaces old ICT equipment?**

**Do you know someone who works for such a company?**

**Would you or they consider gifting them to the school?**

**We do not need hundreds, just some to loan to children for use at home.**

**It may be that the laptop you have is old and doesn't work very well so you think it isn't worth donating. However, we can recycle many such devices into chromebooks for a cost of just £15. This means they get a new lease of life as a web-based computer that requires much less power to use.**

**We have recently converted our ICT Suite PCs to chromebooks for this reason and they are now all able to run at a normal speed!**

**In the private sector it is common to renew devices every 2-3 years. If you are not directly responsible for such things at your work, but could put us into contact with someone who is, please let us know and we can address them a letter directly.**

**Please email [office@smwprimary.net](mailto:office@smwprimary.net) if you think you can help. We would really appreciate your help and support in this matter.**

**Our school needs  
YOU!**
